

As a highly motivated and organized technical officer with excellent communication and interpersonal skills, I am adept at quickly learning new protocols, working in a team or independently, balancing multiple projects and providing a functioning work environment. I work with precise attention to detail and can effectively collaborate with and communicate in an interdisciplinary group. My scientific background has sharpened my critical-thinking and decision-making skills while my working experience in a lab has given me the ability to systematically read, comprehend and apply work instructions. Likewise, my current position with Europe's flagship laboratory for life sciences, has left me well-equipped to establish work priorities with fellow team members.
